2. The Philippines is located in the seismically active Pacific Ring of Fire, which makes us one of the countries that are most vulnerable to earthquake hazards. With the enactment of RA 10121, the National Disaster Risk Reduction and Management Council (NDRRMC) has been leading the efforts to reduce the country's risks on earthquakes and other geological hazards through the interventions of disaster preparedness activities such as drills and exercises.
3. One of the N/RDRRMCs distinct programs is the quarterly conduct of the Nationwide Simultaneous Earthquake Drill (NSED) under the direct facilitation of the Office of Civil Defense (OCD). However, due to the Coronavirus Disease 2019 (COVID-19) pandemic, multiple changes have been made in order to be able to appropriately respond to the impending threats of these hazards.
4. The NDRRMC issued the Memorandum No. 71 s.2020, the Interim Guidelines on the Conduct of the Nationwide Simultaneous Earthquake Drill (NSED) during the Coronavirus Disease 2019 (COVID-19). This pertains to the directives which are custom fitted to promoting awareness and preparedness while at the same time addressing the safety measures and conditions appropriate to the ongoing COVID-19 Pandemic.
